

Daniela (Dani) Diaz

Aspiring Frontend Engineer

El Cerrito, CA • 510.241.8237 • danidiaz.css@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Professional Summary

Front-End Developer and former Peruvian restaurant owner with a passion for building clean, responsive, and engaging user interfaces. Strong attention to detail, creative problem-solving, leadership, and the ability to turn ideas into intuitive digital experiences. My background in software engineering and business management allows me to combine technical skills with communication, customer focus, and collaboration.

Technical Skills

HTML5 • CSS3 • JavaScript (ES6+) • React • Node.js (Basic) • Python • SQL • Git & GitHub • Responsive Design • Flexbox • CSS Grid • REST APIs • Fluent in Spanish

Professional Experience

Software Engineer Apprentice – Cisco
2022 – November 2023

Collaborated with engineering teams in an Agile environment while strengthening frontend development skills. Built experience with modern software development workflows, version control, and team collaboration. Developed technical problem-solving and software engineering best practices through hands-on projects and mentorship.

Owner / General Manager – El Mono Restaurant
2012 – Present

Lead daily operations, budgeting, hiring, training, scheduling, inventory, and customer experience. Increased staff retention by 20% through improved training and developed business strategies that improved operational efficiency and customer satisfaction.

Software Engineering Immersive – General Assembly

Completed a 480+ hour immersive program covering frontend, backend, and full-stack development while building multiple web applications and strengthening technical communication and collaboration.

Selected Projects

- Dino Amigo – Interactive Spanish-learning platform built with React, Node.js, Express, MongoDB, HTML, CSS, and JavaScript.
- Memory Game – Responsive JavaScript memory game demonstrating DOM manipulation, event handling, and game logic.
- Restaurant Review Site – Full-stack restaurant review application using Express, MongoDB, JavaScript, and CSS.
- Developer Portfolio – Responsive portfolio showcasing frontend projects and modern web development skills.
